ABOUT US

WHO ARE WE?

A national foundation that is specialized in information technology and communication, walking in developing and steady steps to help the motherland to acquire the desired development for the blessed vision of 2030.

مؤسسة وطنية تعمل في مجال تقنية المعلومات و الاتصالات تسير في
خطى ثابتة و متطورة لنساعد الوطن على تحقيق التطور المنشود في
الرؤية المباركة 2030 عبر كوادر متميزة ذات طاقات متجددة تواكب
المتطلبات و الاحتياجات للتقنية المعاصرة .

HOW CAN WE HELP YOU?

We strive to serve private companies and governmental foundations to advance towards the technical level that meets the needs of the digital age, through unique technical services, skillful work and fast achievement at suitable prices.

نسعى جاهدين لخدمة المؤسسات و الشركات الخاصة و الحكومية للمضي قدما نحو تطور تقني يلبي متطلبات
العصر الرقمي عبر تقديم خدمات تقنية مميزة بعمل متقن و انجاز سريع بأسعار مميزة .

The key to PVS's sustained success is its employees, characterized by their professionalism, high technical qualifications, integrity and strong sense of collaboration.

In addition, PVS aims to recruit and retain employees with a strong blend of technical and personal skills and actively encourages team work – both internally and externally - as a key feature of the day-to-day business.

Furthermore, PVS's continuous development provides broad opportunities for the employees to develop skills on major ongoing projects and to acquire valuable new experiences in various fields of interest. The company strongly emphasizes continuous career development, by providing new assignments and opportunities to support career path development.

MAINTENANCE & EMPLOYEES

إن مفتاح استدامة رؤية الإحتراف هو موظفوها ، والقدرة التنافسية التي تتميز باحترافهم ومؤهلاتهم التقنية العالية والنزاهة والشعور القوي بالتعاون.

بالإضافة إلى ذلك ، تهدف رؤية الإحتراف إلى تعيين الموظفين والاحتفاظ بهم بمزيج قوي من المهارات الفنية والشخصية وتشجيع العمل الجماعي - داخليًا وخارجيًا - كميزة أساسية للأعمال اليومية.

علاوة على ذلك ، يوفر التطوير المستمر للشركة فرصًا واسعة للموظفين لتطوير المهارات في المشاريع الرئيسية الجارية واكتساب خبرات جديدة قيمة في مختلف مجالات الاهتمام. كما تؤكد الشركة بشدة على التطوير الوظيفي المستمر ، من خلال توفير فرص ومهام جديدة لدعم تطوير المسار الوظيفي.

PVS's continuous development provides broad opportunities for the employees to develop skills on major ongoing projects and to acquire valuable new experiences in various fields of interest

Over 10 million man-hours of maintenance and operation work provide solid evidence of PVS's experience, reliability, and strong relationship with clients over the past years. At present, Operations & Maintenance have over than 50 qualified personnel.

HEALTH & SAFETY

حصلنا على أكثر من ١٠ ملايين ساعة عمل من أعمال الصيانة والتشغيل بدون إصابة دليلاً قوياً على خبرتنا وعلاقتنا القوية مع العملاء على مدار السنوات الماضية. في الوقت الحاضر ، يضم قسم العمليات والصيانة أكثر من ٥٠ موظفاً مؤهلاً.

PVS Safety is strongly committed to all health and environmental procedure to its employees, collaborators and visitors.

facilities to sites, through full compliance with applicable international and National regulations. The PVS policy standard sets the framework for the systematic identification, assessment and management of risks for health and safety at workplaces; thus, contributing to the minimization of accident possibilities.

Anywhere PVS operates, this policy seeks to:

- ▶ Prevent workplace injuries
- ▶ Improve the working conditions.

TECHNOLOGY SOLUTIONS

- ▶ NETWORKING
- ▶ SECURITY SYSTEMS
- ▶ ACCESS CONTROL SYSTEMS
- ▶ CCTV / AUDIO SURVEILLANCE
- ▶ PUBLIC ADDRESS
- ▶ INTRUDER ALARM SYSTEM
- ▶ WIRELESS SERVICES
- ▶ INTEGRATE AND MANAGE IT INFRASTRUCTURES
- ▶ MONITORING SYSTEM

We take a consultative approach in understanding our clients' needs and expectations, proposing both unique and cost-effective solutions. This has many dimensions besides technology itself, capacity planning, growth requirements, security risks, cost of down time and management overheads.

NETWORKING

- ▶ Highly technical and logical work in serving as a specialist in networking
- ▶ Enterprise network planning, high-level troubleshooting, security, network system administration and/or networking products and services.
- ▶ Work includes the enterprise design, review of internal and external infrastructure requirements, technology evaluation, testing and developing guidelines for implementation
- ▶ Specialists would normally consult with clients to determine any additional requirements in the future
- ▶ Design additions, solutions to complex network operating problems, and the design of network security systems

WIRELESS NETWORKING:

We work with the leading names in the industry to provide our clients with world class services.

Our competency covers planning and designing wireless networks (LAN and WAN), Installation and building the complete network infrastructure. (Including Wireless Point to Point Link).

SECURITY

CCTV

In order to extend our services, Ions has added to its portfolio a range of security systems

- ▶ CCTV and Surveillance Systems
- ▶ Access Control Systems
- ▶ IP Cameras
- ▶ Automated Gate Barriers using RFID passive tag readers
- ▶ Biometric Access Control and Time Attendance

CCTV AND SURVEILLANCE SYSTEMS

Providing the finest solutions towards monitoring critical areas, including buildings, towers, compounds, malls, public areas, homes etc.

IP Based systems or Analogue systems depending on the client's needs along with our suggestion

Recording features locally, central location using Ethernet, service provider lines on digital versatile recorders.

Motion detectors high sensitivity, high resolution IR cameras

Ions has the knowledge and recourse to both research and design CCTV systems tailored to your need. Providing cost efficient, flexible and most importantly reliable solutions.

ACCESS CONTROL SYSTEMS

Varying from simple access control devices that require no computer to be connected, to a more sophisticated Networked PC controlling numerous numbers of access door and users. Access Control has proven to be an essential and reliant tool for businesses regardless of sector, becoming popular in retail department stores, industrial, commercial premises, public buildings such as schools, libraries, and hospitals.

Access Control Systems provides the perfect solution to controlling certain areas in the flow of people, distinguishing between authorized from non-authorized people entering, in a less cost efficient manner.

You can select various different access control systems such as:

- ▶ Biometric Readers
- ▶ Thumb Readers
- ▶ Proximity Fobs
- ▶ Swipe Cards

SECURITY

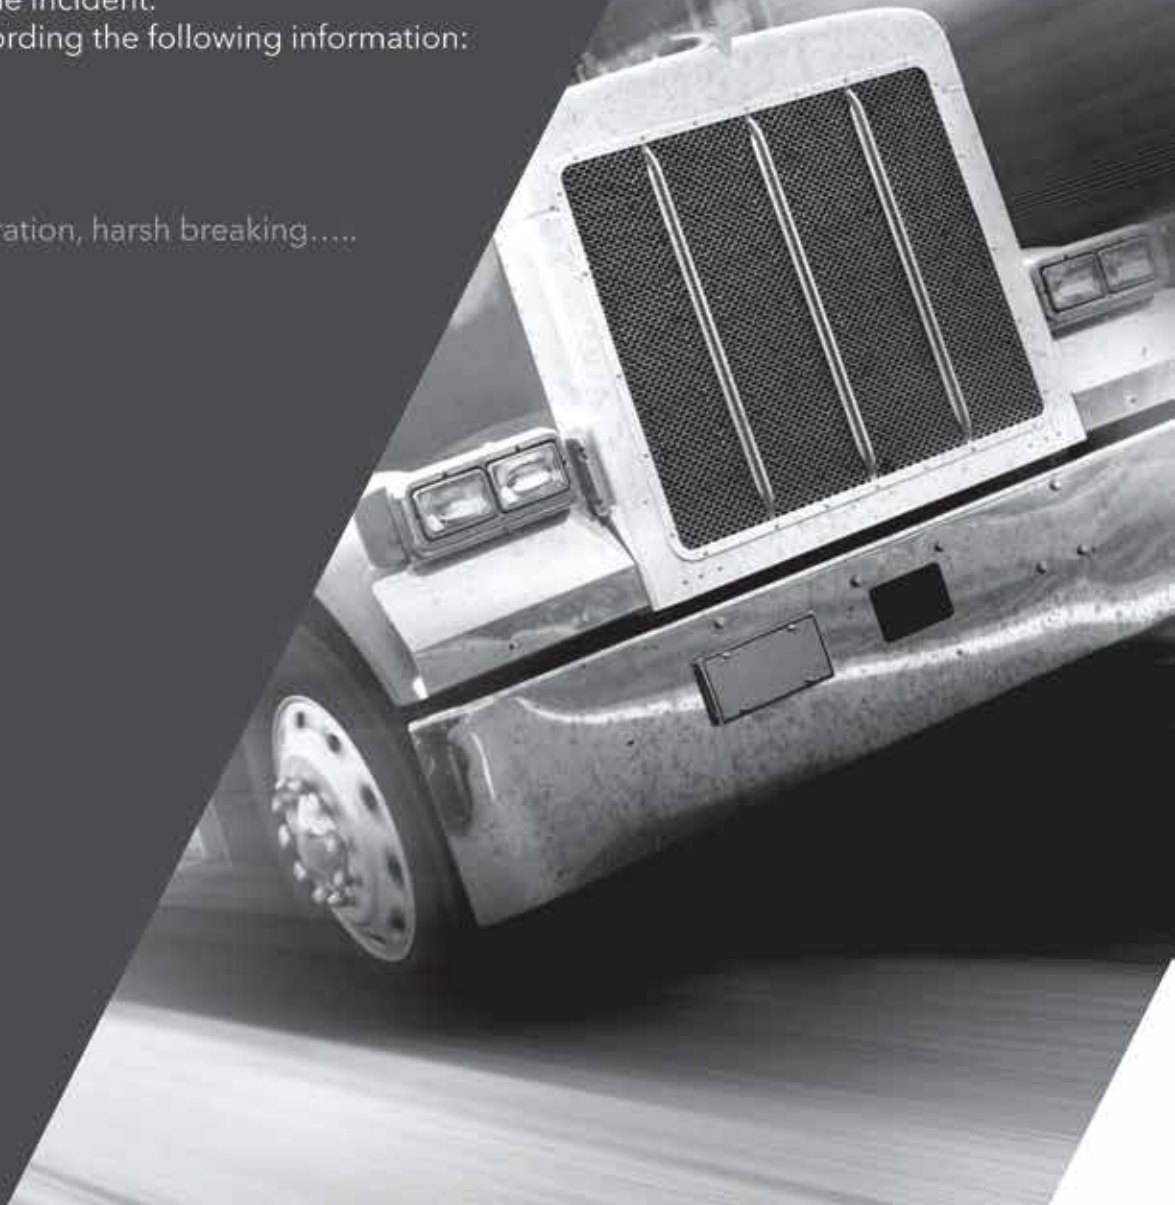

VISUAL TELEMATICS SOLUTIONS

- ▶ Telematics Camera
- ▶ LCD Monitor
- ▶ GPS
- ▶ Multi Channel
- ▶ Rear Camera
- ▶ Dash Camera

DBS Visual Telematics system has the most advanced commercial dash camera, developed to provide evidence of event which can help the management and the driver to find the fault.

DBS Visual telematics record exactly what happened before, during and after the incident.
it does this by recording the following information:

- ▶ Vehicle location
- ▶ Impact Detect
- ▶ Driving Behavior
like speed ,acceleration, harsh breaking.....

FLEET TRACKING APPLICATIONS

SAMS TECHNO PLATFORM

SAMS TECHNO product line is the ultimate solution for intelligent GPS tracking and fleet management. Companies from all over the world choose SAMS TECHNO since it utilizes a powerful set of technologies to keep customers aware of the vehicles' whereabouts, condition, status and geographical location. As of 2016, there are more than 900 SAMS TECHNO-compatible tracking devices, including personal trackers and automobile controllers. Additionally, your smartphone can function as a fully-featured GPS-tracker with special software installed.

BASIC FUNCTIONALITY

- ▶ Fleet performance analysis
- ▶ Workforce performance analysis
- ▶ Precise location service
- ▶ Routing service
- ▶ Route optimization
- ▶ Route check points visit control
- ▶ Security control
- ▶ Engine-hours and machine hours control
- ▶ Address searching
- ▶ Nearest units searching
- ▶ Handy management system

EXTRA FUNCTIONALITY

- ▶ Fuel consumption accounting, fuel theft and fuel filling accounting
- ▶ Driving behavior/Eco Driving
- ▶ Temperature control
- ▶ CAN-bus data parameters reading
- ▶ Doors opening detection
- ▶ Alarm button
- ▶ Remote engine shutdown
- ▶ Communication with driver
- ▶ Integration with Maxoptra scheduling and route optimization software platform

ALARM

A black and white photograph showing a person walking through a glass door. Two black Sensormatic pedestals are positioned on either side of the door. The person is wearing a light-colored coat and dark pants. The background shows an office interior with desks and chairs.

Sensormatic
by Johnson Controls

ACCURATE, CUSTOMIZABLE, VISIBLE AND AUDIBLE ALARMS TO IMPROVE STAFF RESPONSE

- ▶ Employ Directional Alarms
EAS, Jammer, and MFD independent
- ▶ Receive Tags-Too-Close Warning
- ▶ Ignore Tags in Static Display
Ring Down Cancelling
- ▶ Ignore Tags Behind Pedestals
Back Field Reduction (BFR)

9060 CONTROLLER

The Engine Behind Sensormatic® Synergy

- ▶ It's %10 smaller, over %50 lighter, and uses less power than prior Sensormatic controllers
- ▶ Ensures optimal performance thanks to the innovative Dynamic Signal Processing (DSP)
- ▶ Maximizes space and reduces nuisance alarms with improved backfield reduction and "tags-too-close" features
- ▶ Supports Metal-Foil Detection and both common and newer "pulsed" Jammer Detection
- ▶ Enables more accurate people counting and data reporting due to improved processing and expanded memory
- ▶ It's compatible with AM EAS pedestal RFID upgrades
- ▶ Prevents data loss in case of power interruption thanks to the auto-save function

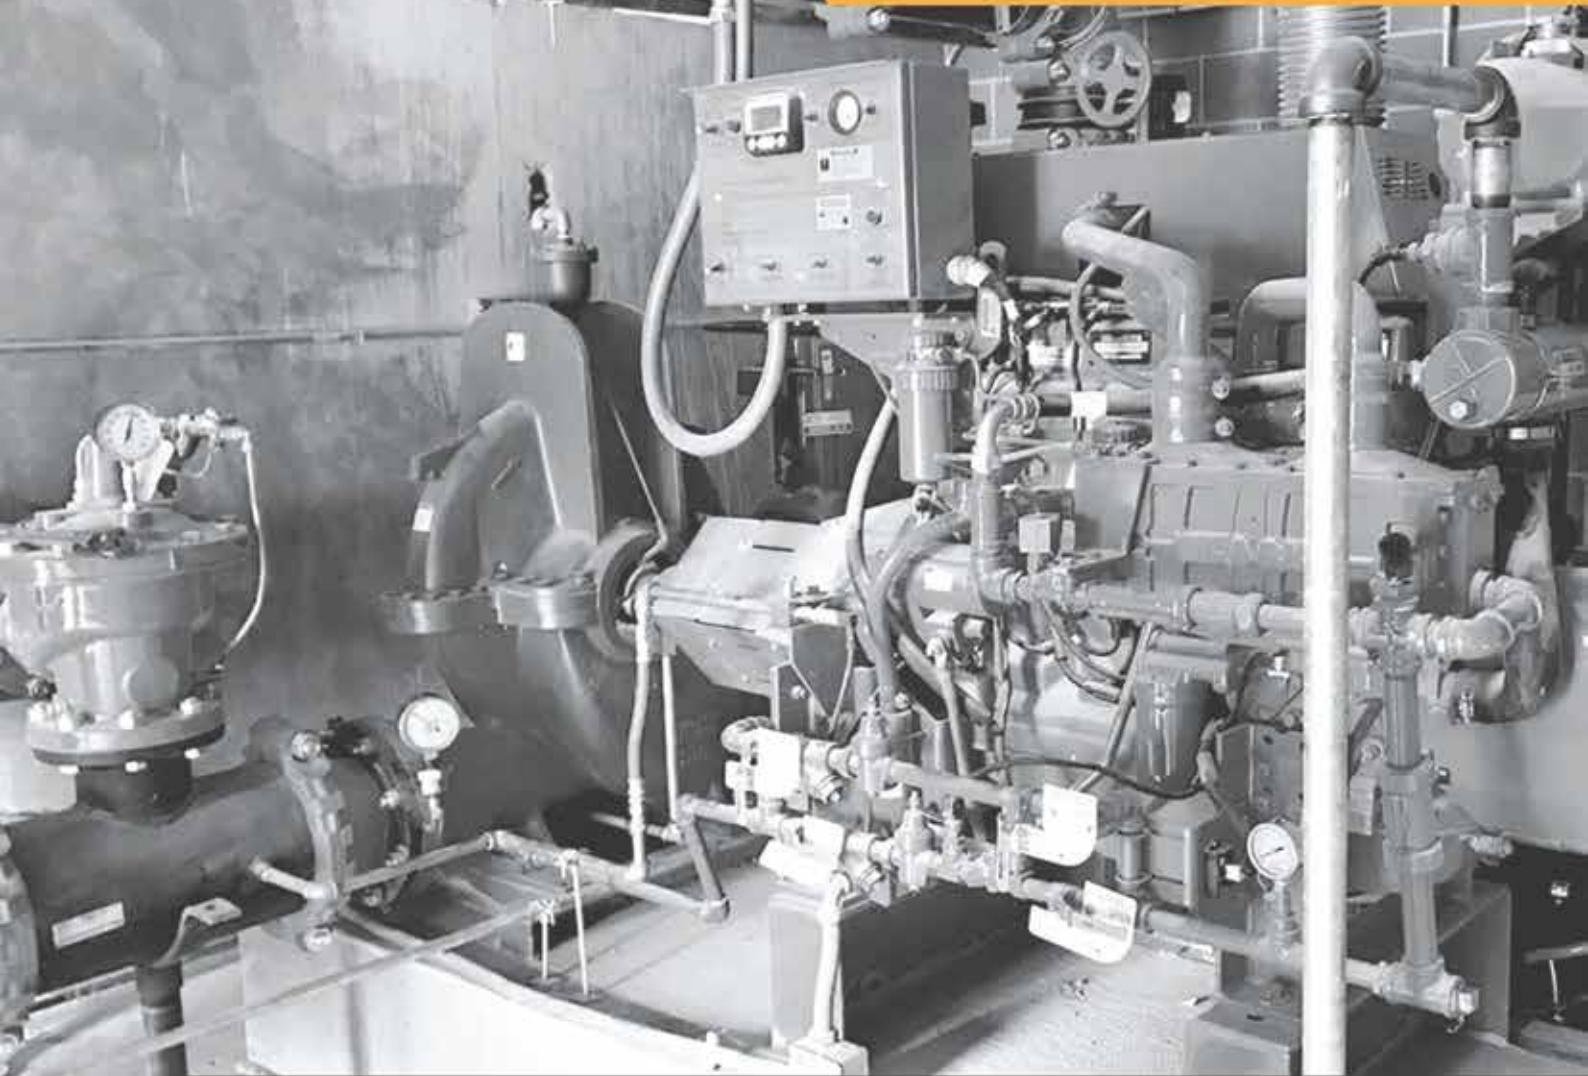

FIREFIGHTING SOLUTIONS

FIRE SYSTEMS

SYSTEM TYPES

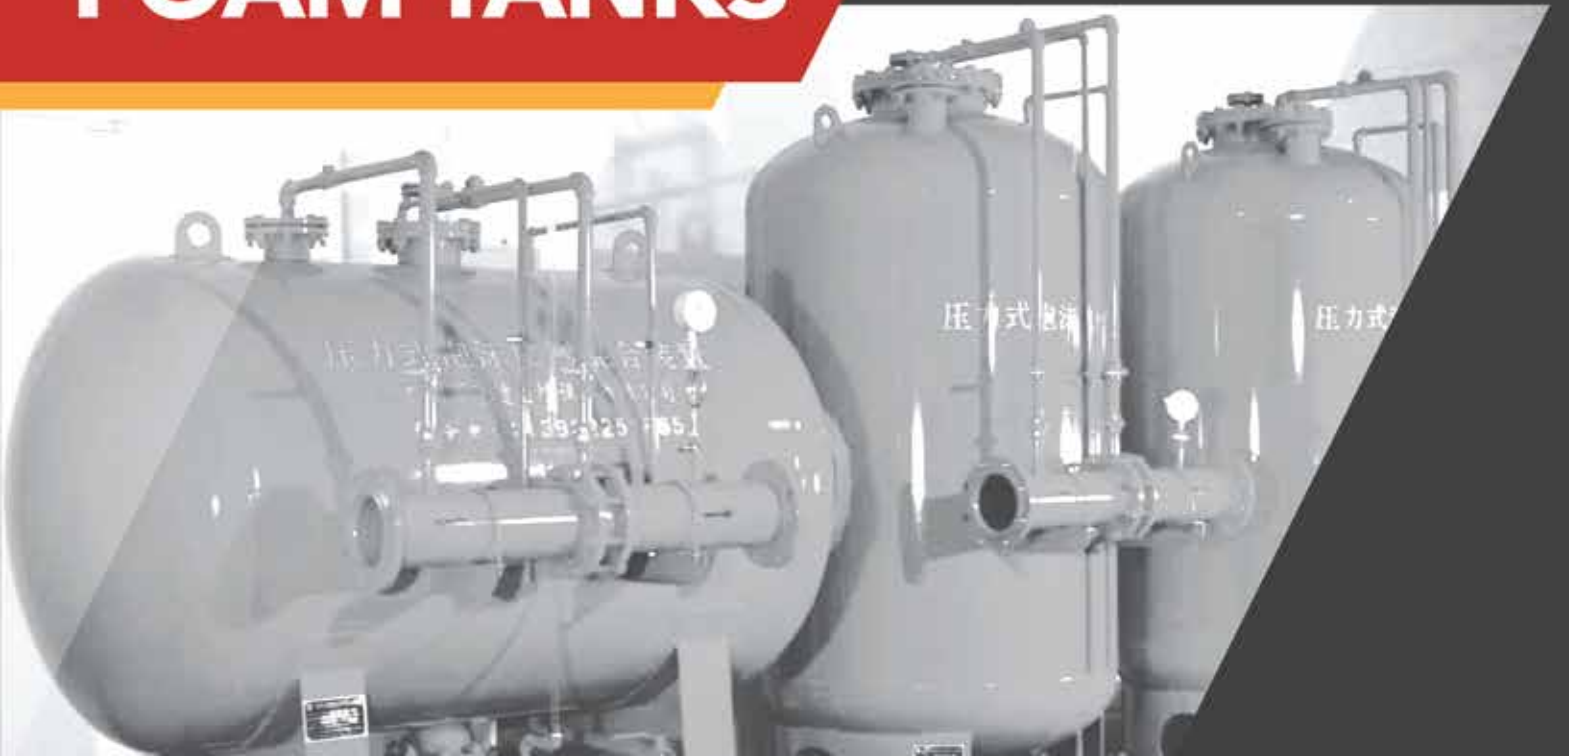

- ▶ Fire Fighting & Sprinkler Systems
- ▶ Wet Sprinkler Systems
- ▶ Dry Sprinkler Systems
- ▶ Pre Action Systems
- ▶ Deluge Systems
- ▶ Anti Freeze Sprinkler Systems
- ▶ Special Hazard Control Systems
- ▶ Fire Pumps and Controllers
- ▶ Fire Suppression Systems
- ▶ FM 200- Systems
- ▶ Carbon Dioxide Systems
- ▶ Dry Chemical Kitchen systems
- ▶ Wet Chemical Kitchen Systems
- ▶ Foam Systems
- ▶ Fire Alarm Systems
- ▶ Backflow Prevention
